AVerMedia

Digital Entertainment Everywhere

AVerTV Satellite Hybrid+FM (A706)

Your PCTV entertainment deserves a better 3-in-1 solution！

AVerTV Satellite Hybrid+FM allows you to access free-to-air digital satellite TV, analog TV and FM radio broadcasting with stereo sound on your PC.

Never miss any of your favorite TV shows

Wow！ Excellent design！ The dual-mode function allows you to watch or record DVB-S and analog TV at the same time.

Exclusive AVerMedia MCE Plug-in Solution

AVerTV Satellite Hybrid+FM is shipped with a “Universal DVB” plug-in and the best MCE software encoder solution for Windows Media Center Edition (MCE), providing you to watch or record DVB-S TV programs directly under “My TV” on XP and Vista platforms. Also, AVerMedia’s exclusive Vista MCE Video Gaming Plug-in and Video Quality Enhancement Plug-in can synchronize the video and audio of video games on Vista MCE.

Enjoy your shows on iPod with real-time H.264 recording technology

The newest AVer MediaCenter offers advanced real-time H.264 recording compression technology up to resolution of 320X240 iPod Video format recording. It also saves more than 4X hard disk spaces comparing with MPEG-2 format.

ProgDVB and My Theatre Software support

AVerTV Satellite Hybrid+FM is supported by ProgDVB and MyTheatrerDVB-S watching software, allowing you to enjoy the digital broadcast in your favorite choice of software. AVerTV Satellite Hybrid+FM, in addition to its advanced AVerMedia software, gives you options to customize your DVB-S watching habit.

Digital Entertainment Everywhere

Software Features – AVer MediaCenter

A clean and simple way to enjoy TV on your sofa

The new 10-foot user's interface provides you an easy way to access all your PC based media via the easy-to-use remote control.

TV / FM

An easier way to enjoy and record TV or FM programs, even watch multiple TV channels at the same time via an antenna, cable, or satellite TV signals. You can also listen to live radio

Video

It offers an intuitive way to view your video files and folders by date or by name, providing an interactive video playback experience.

Expand your multimedia horizons

A fun new way to access your personal digital music/picture library, play it as background music while viewing the photos with stylish slideshow effect or using other functions on your computer.

Multi-Card Support

The most unique bonus is that it supports multimple AVerMedia tuner cards. You can watch several live programs simultaneously in split window mode on one monitor. (dependent upon CPU loading)

Blind-Scan

Blind-Scan function can manually overcome the geographic limitation of the default channel frequency so that users can search more complete TV channels.

Other Features

- Recording video into MPEG-1/2/4 & H.264
- PIP/PBP Setting allows the viewing of multiple channels simultaneously

- Sequential Snapshot
- Customized Colour Adjustment
- Full Channel Scan Capability
- Smart Power Saving Control
- HDTV H.264 / MPEG-2 Live TV
- Teletext overlays on the screen
- Recording video in H.264 format & playing on iPod or PSP devices

*(Only for analog TV) To encoder MPEG-4 format, we suggest that users should download DivX codec from www.divx.com or XviD codec form www.xvid.org. The codecs are not developed by AVerMedia. Therefore, AVerMedia could not guarantee the function of MPEG-4 recording.

Package Included

- AVerTV Satellite Hybrid+FM
